

Wireframe (Design - Methodology)

Type of game : Quiz Game This is a narrative card game in which the goal is to complete the entire wireframe.

Story : Who will be the best head chef at wireframe ?

Rules :

Time : 30 min

Players : 1-6

Ages : 10 and up

In order to learn how to play the game, it is recommended that the Tutorial adventure is played first, as it will walk you through the rules.

Just follow the setup instructions as indicated below:

Place the deck in the center of the table, players cannot spread out the deck on the table.

If you can play with the app:

Then start to create an account on the app to get ready.

If you can't play with the app : The players place the wireframe elements when they obtain the elements needed to create a wireframe in front of them on the table.

The oldest player starts by drawing a card and reading the riddle to the player on their right. If the player on the right finds the right question, the game master unlocks the wireframe element for the player who found the correct answer. If the player searching for the riddle gets the wrong answer, they let their neighbor on the right choose one of the elements they have, then move on to the next player.

Then, the player who answered correctly draws a card and asks the next riddle to their neighbor.

The first player to complete their wireframe (visible in the cheat section of the instructions or also by the game master on the app) wins the game.

The cards:

The Riddle cards: Solve the riddle to get an element of wireframe

The Bonus cards - Green cards

These cards is an element of the universe from Wireframes. It can be a QRcode or the element written on the card. Then on the card you have also the number for the next room of the restaurant (level).

The Penalty cards - Red cards

When you get a penalty card, you will lose some time to complete the wireframes.
